Dear Customer,

Covitar s.r.o. declares for the following products:

- **Organic / Conventional Agave Syrup**
- **Organic / Conventional Sweet Agave Powder/Granulated**
- **Organic / Conventional Agave Inulin Powder/Granulated**

Products are from natural and organic origin, for this reason:

- Non – Irradiation: This product is made with raw material that has not been irradiated. The final product has not been irradiated.

- Non - Ethylene Oxide (EtO): This product is made with raw material that has not been treated with EtO. The final product has not been treated with EtO.

In addition, we do not handle any of the raw materials concerning the Ethylene Oxide crisis listed below:

Sesame, Nuts, Dried mushrooms, Rice, Dried vegetables, tea, oil seeds , and plants (centella asiatica, ashwagandha, psyllium, turmeric, ginger, pepper, bacopa, curry, spirulina).

- **Disinfection Methods and Pest Control:**

We do not use fumigation as a method of pest control or disinfection in warehouses and production areas since it is not authorized by our organic certification body. We only use light traps for flying insects, food grade baits for crawling insects and rodents, in addition, cleaning chemicals, food grade authorized products in accordance with our Organic Scheme.

Please note that we perform annual external analyses to detect the presence of contaminants in all our products and raw materials, such as: pesticides, heavy metals, mycotoxins, pathogens, sulphites, furans, dioxins, gluten and GMO.

For further information, please do not hesitate to contact us,
Sincerely,

Covitar, s.r.o.
