Non-GMO Statement

Covitar s.r.o. declares for the following product:

- **Organic Agave Inulin Fiber Plus.**

Products are from natural and organic origin, for this reason:

1. The product is organic agave syrup (certified by: MAYACERT S.A): as defined in Article 29 (1) of Regulation (EC) No. 834/2007 and of Regulation (EC) No. 889/2008).
2. The product does not contain (or used to process) any additives (preservatives, carriers, anti-caking agent, etc.) or processing aids (enzymes, solvents, extractants, microorganisms, etc.) in its manufacturing process;
3. The product does not contain microorganisms genetically modified;
4. The product does not contain enzymes derived from genetically modified organism;
5. The product does not contain synthetic biology;
6. The product does not contain any amino acids, fatty acids, glycerin, lactic acid, vitamins, gelatin, etc., derived from animal sources as dairy, meat, eggs, bee products, wool/hides, etc.;
7. The product does not contain any ingredient or derived from alfalfa, canola, corn, cotton, papaya, soy, sugar beets, yellow summer squash or zucchini.

Genetically Modified Organism (GMO): A plant, animal, microorganism, or other organism whose genetic makeup has been modified using recombinant DNA methods, also called gene splicing, gene modification, or transgenic technology. Cloned animas and their progeny are also considered GMOs, as are the products of synthetic biology. Any organism or materials – is a product of synthetic biology if it is associated with synthetically created nucleic acid sequences and/or genes. **(Definition based on V12 of the NGP Standard)**

Please note that, our products are not concerned by the regulations (EC) No. 1829/2003 and 1830/2003, since GMO's are not used for its production.
