| <b>Product picture</b><br>(Example photo, not batch-related, deviations possible)                               |                                                                                                                                                                              |
| Preparation                                                                                                     | Soak the beans overnight and then rinse. Cook 1 cup of beans with about 3 cups of water for about 40 minutes over a low heat, then season with salt. Ideal for soups such as minestrone, antipasti, stews and salads, but also for sweet desserts and pastries. |
| Usage                                                                                                           |                                                                                                                                                                                                                                                                 |

| <p>**Raw food" is not a uniformly defined term and there are different interpretations of it. For Covitar it includes products which are not heated above 45°C during the production process as well as sun-dried fruits. The temperatures during transport are not considered, as there are no sufficient reliable information on this. Mainly unrefrigerated containers and trucks are used. The information on manufacturing and process temperatures are based on surveys of our suppliers.</p> |                                                  |
